

Letters continued ...

Dear Sir,

This style of development can be found in abundance nearer to Perth and would add nothing to this area.

PAUL NEWMAN
STONEVILLE

Dear Sir,

The 'Hills Lifestyle' to me is living in a semi-rural environment, as it is now.

No underlying snobbery implied.

B MASON
STONEVILLE

Dear Sir/Madam,

The hills lifestyle equals:

- (i) the enjoyment of living close to trees, native birds and animals
- (ii) large lots - space to grow vegetables, an orchard, keep some animals
- (iii) a peaceful, quiet environment
- (iv) few traffic lights
- (v) little pollution
- (vi) a rural setting where there is room for wildlife as well as a sparse human population
- (vii) a relaxed, often more harmonious lifestyle in which the drive for material success isn't paramount.

Please, Shire of Mundaring, don't take away our hills lifestyle.

GILLIAN R MULLETT

Dear Editor,

I enjoy not having to lock my car at night, I enjoy the peace and quiet that you cannot find in the Flats. I moved here from Suburbia to enjoy the wildlife and you will find that most of your visitors from the suburbs come here to do the same.

JO SHEIL
SECRETARY, STONEVILLE PROGRESS ASSOCIATION

Dear Editor,

I would be highly surprised if his views represent even a small minority of hills residents. We all know what the "Hills Lifestyle" is and are very keen to maintain it. Keep up the good work.

PETER MORRIS AND FAMILY

Dear Editor,

By destroying the forest, which cleans our air and attracts the rain clouds, and by polluting the watershed with a sewage plant which

BEEES NEEZ APIARIES
are open to the public
Every Sunday 10am - 4 pm.
Sample and purchase honey
& beeswax products.
We have Jarrah and Creamed Honey.
285 Leyland Close, Beechina
(between Chidlow & Wooroloo)
Phone 9572 6116

would service the 8000 residents, and with the herbicides and pesticides they will put on the developments' lawns, we are putting a gun to our heads.

RUSTY GELLER
HOVEA

Dear Sir

To us the Mundaring area has a special uniqueness and if progress is to occur it must be done with one major thought in mind - Maintenance of this uniqueness.

DAVE AND MARGARET MORTON
STONEVILLE

Hello,

The Hills are unique and should be retained in the rural lifestyle.

TOM POLICH
MIDDLE SWAN

Dear Sir,

People in the hills are generally friendlier and more community spirited. You just have to look at the difference in behavior of parents and children at youth sports. There is certainly less of a prevalence of the "ugly parent syndrome" in hills sports and our lifestyle has a lot to do with creating a less pressurized environment for this to develop.

BRAD PODMORE

To the Editor.

If we wanted to hear our neighbours conversation we would have built on the flats!!!!

CRAIG AND FIONA EDWARDS

Dear Editor,

The Hills really is a special part of Australia, and everyone we have met here is living in the Hills for the same reason.

We believe that "suburban type" residential planning would threaten our idea of the "hills lifestyle" by creating noise, traffic, pollution and increasing crime.

BRUCE AND SHARON

EDITOR'S NOTE:

I thank all our correspondents and advise that this matter is now closed unless new developments occur which justify re-opening discussion on this matter so dear to the hearts of Hills residents.

DOUGLAS
SUTHERLAND-BRUCE
EDITOR
